Introducing Touchless Faucets for Residential & Commercial Applications

Commercial restrooms with manual faucet and flushometer handles can be a breeding ground for germs.

- ✓ Touchless faucets and soap dispensers minimize contact with surfaces where germs breed.
- ✓ Improves overall hygiene and cleanliness in the restroom.
- ✓ ADA compliant.
- ✓ Conserves water & energy.
- ✓ Gooseneck spouts allow handwashing up to the elbows.
- ✓ Automatic flush features avoid stagnant water in pipes.
- ✓ Laminar flow faucets keep water from mixing with germ-filled air.
- ✓ Adjustable infrared sensor range sets faucets for specialized user requirements.
